To: All AMFA Locals

Re: **National Secretary / Treasurer' Monthly Report for December 2008**

Dear Members:

The first week of December I participated on the NEC Conference Call, worked to get the National quarterly financial reports sent to the Locals, getting the final revisions to the Constitution completed as well as the usual reviewing / correcting and approving invoices, expense reports and such.

The second week after the NEC Conference call I left for Portland, Oregon to attend the Local 14 Quarterly meeting and visit the Horizon Maintenance facility to meet and talk to the members. This was a very welcome change from working primarily from an office most of the time. The monthly legal invoices were reviewed, corrected and eventually approved after resolving a pro rata funding issue. I also assisted in reviewing and preparing to mail the National newsletter to our members.

The third week of December on the weekly NEC Conference call it was decided to have another call later that week with the SWA Negotiation Committee in regard to the Tentative Agreement referenda for the SWA members. I worked to incorporate revisions and changes to the National Policy manual and getting the ratification elections at SWA and the Seniority Integration LOA at Delta (NWA) started.

The week of Christmas the NEC held our usual Monday Conference call as well as another call with the SWA Negotiation Committee and SWA Local Presidents regarding the ratification vote timeline and the schedule for the committee to make station visits to answer question about the T/A. I amended and finalized the election documents to keep the process moving as scheduled.

The last week of the year I worked on the Union Business letters for Officers, answered some member questions regarding elections and paperwork, and prepared the NEC conference call minutes for December.

As 2008 comes to an end I would like to wish everyone a Happy New Year.

Sincerely,

Steven A. Nowak  
National Secretary / Treasurer
