To: All AMFA Locals and Members

Re: **July AND Monthly Report**

Dear Members:

The month of July was very busy. Between the SWA/AirTran seniority integration, SWA Maintenance Control and Facilities Maintenance groups and the newest filing for the SWA Maintenance Trainers, the SWA Appearance Technicians turning down the T/A that was presented, and the various organizing efforts that are in the process, I have been running at a pace of a 737 flying through the sky. I have worked with The Crouch Group on initiatives to better AMFA as an organization and participated in all AMFA NEC conference calls and the NEC meetings in Dallas.

There are so many reasons for you to be proud of your Union, AMFA! We have continued to offer the kind of services that AMFA has become known to offer its members while continually striving to make the process better for all our members. It is a real privilege to be associated with a group of guys that care as much as I do what happens to their members. The Local LEC's have been the catalyst to make sure the job gets done the right, AMFA way. Thank you! You are truly what AMFA is all about. The LECs support us and help us keep our noses to the grindstone as well as channel their members needs and wishes to the NEC for action. The NEC hears all that you say and honestly strives to carry out your wishes for the betterment of the organization, within the constitution. Again, the membership ought to get out and support your locals and make all voices heard.

Don't forget our Facebook and Twitter pages.

Remember: The AMFA vision and the members vision needs to come together and be one in order to survive. Look to the past for the future.

Only through you can AMFA be a great union! No you, no AMFA!

God Bless America, God Bless our Troops, and God Bless AMFA!

Thanks for all you do,

Floyd Looney

AMFA Assistant National Director

SAFETY IN THE AIR BEGINS WITH QUALITY MAINTENANCE ON THE GROUND
