Re: Assistant National Director's Monthly Report for November 2009

Dear Member;

November 2009 was a very exciting time for me. In the first week I participated in the NEC meetings in Dallas, where I was sworn in as the Assistant National Director of AMFA. What an honor! Also that week I participated in the Joint Advisory Council meetings.

The second week of November, I participated in the NEC conference call, filled out various forms of employment, worked on my article for the Grapevine, and communicated with Tim Cullen on a new practice some FBOs are using, *Importing Foreign Workers*, to accomplish scheduled checks on domestic airliners. I am also looking into the possibility of some shirts for the National staff, as well as getting a good price in case any local officers would like some. The more we buy the cheaper they are. More details later.

The third week in November, I participated in the SWA Appearance Technician contract negotiations in Dallas, The negotiations went well and further dates were made. Then I participated in the NEC conference call, and worked on the importing foreign mechanics issue, and my Grapevine article.

The fourth week in November, I participated in the NEC conference call and continued on with the other things that I have ongoing.

I hope that ya'll had a great Thanksgiving and remembered those that are making the sacrifice for us in the cause for **FREEDOM**, so we could stay at home and enjoy our Holiday.

Sincerely,

Floyd Looney
