Re: **October AND Monthly Report**

Dear Members:

***Cowboy Logic: "You can't build a dependable reputation on what you're gonna do tomorrow."***

This statement is so true. We have to achieve and conquer on a day to day basis. We can never put something off just because we want to rest. By the time we are through resting the opportunity has likely passed us by.

October was a very busy month with the many things that are on your NEC's plates. I was involved in the SWA/AirTran seniority integration negotiations, SWA Appearance Tech negotiations, and NEC meetings in Portland, Oregon. While in Portland we met with some Aircraft Maintenance Technicians who are seeking a better, more craft specific union representation and who are interested in the democratic, transparent principals that AMFA has to offer. Thanks to the Local 14 guys that came and showed their support and solidarity. Its members like these that make you proud to be AMFA.

In October I also participated in all NEC conference calls and coordinated with our PR team, The Crouch Group, as they worked with AMFA on the many things we have going for our members and potential members as well as keeping the Facebook page up to date in order to keep our members informed about what is going on in the aviation world and AMFA specific news.

***Remember: Always pray for the families and loved ones of the many folks serving in the United States Military and thank our brave soldiers any and every time you get the chance. If not for them we would be speaking a different language and wishing for the liberties we all enjoy in this country.***

***Freedom, Liberty and Justice will prevail.***

***God Bless America!***

**Thanks for all you do,**

Floyd Looney

AMFA Assistant National Director
